[2019 Primary E-024.xlsx](#)

Yes, thanks! I have found another report which might be of interest, but the voter history numbers won't be available for the General until each County processes their poll books and closes the election in SEMS.

This report includes all with voter history, whether their ballot was counted or not (Absentees and Affidavits).

Take a look and let me know what you think. It will require some clean up in the Excel formatting, but probably a lot less data entry.

Thank you,  
Madalan

Madalan,

Thanks for your attention to this matter.

We would like accurate, precinct by precinct registration information for all of Mississippi's voting precincts as of the registration cut off date for the November, 5, 2019 general election. We will eventually be using this information to help us design districts for the House and Senate following the 2020 census PL-94-171 data delivery. When we are looking at such data as voting age population and minority voting age population, it would be beneficial to have an understanding of how many persons are actually registered in a precinct. We also look at actual elections when we devise districts, and it would be instructive to see the percentage of registered voters who turn out in given elections.

Is this what you need?

Thanks,

Ted Booth

Hi Ted,

JTX-031-001

We are thinking the most efficient way to get exact poll book numbers would be to have a custom query written by our support company. Can you please send a request of the information you need along with how it will be used?

Thank you,  
Madalan
